

MASTER RE-SCHEDULING NOTICE

February 26/27, 2022

The Lower Island District Cup finals take place the weekend of February 26/27 at Lakehill's Braefoot Park. Those games are identified in this notice in red as ***District Cup***. For match day and start time see the *District Cup finals schedule*.

Where possible teams not playing in a District Cup final have been scheduled games to play February 26 or February 27. The winners and losers of the four outstanding District Cup semi-finals being played Feb. 19/20 have games to play February 26/27 as listed in this notice. February 26/27 is the last weekend that LISA will be scheduling games between Lower Island U14-U18 teams.

The deadline for league play has past, therefore teams can no longer play any league game and have it count in the official standings. That means games on this notice that have been scheduled by LISA for either February 26 or 27 are considered to be "*league games that will not count in the standings*." Home team is reversed from their last league game (except if there are field availability concerns).

Although these games do not officially count in the league standings, since they have been scheduled by LISA they are considered "league games" and as such they do count in regards to discipline (e.g. yellow and red cards will be recorded, they will count towards working off suspensions).

These LISA-scheduled games are not exhibition games. Those under suspension can not participate in exhibition games but sitting out exhibition games does not count towards working off suspensions.

NOTE: all teams must report the scores for all their games, *including the District Cup finals*, to their LISA score recorder by early evening on the day the game was played. If their game was not played they must report why it was not played.

While scores for "league games that will not count in the standings" must be reported those results can not be posted on the LISA website. When scores are posted the website software program automatically recalculated the standings based upon the posted score. So, since those results do not count in the standings, they can not be posted on the website.
