INTRODUCTION

Youth soccer is most effective when everyone involved, be they players, coaches, referees, spectators, or organization officials, knows and follows the 'Rules of the Game'.

This compliance promotes fairness and creates a supportive, inclusive game environment.

Some of these rules are set by senior soccer organizations. At the international level, the body is FIFA (Federation Internationale de Football Association, the International Federation of Association Football). In Canada the senior body is the Canada Soccer Association (CSA) and in British Columbia, the BC Soccer association (BCSA). For southern Vancouver Island, the organization is the Lower Island Soccer Association (LISA).

The rules and regulations in this manual are based on the rules and regulations from those of these bodies as they apply to the LISA District.

They also reflect the LISA constitution and bylaws and support the LISA policies.

COVERAGE

This manual contains all the rules and regulations as they are at the date of release (see the footer for the date).

As soccer adapts to changes in the sporting environment, rules and regulations may also change. The LISA board regularly reviews and updates these rules and regulations to reflect those changes.

LISA releases a new version when changes affect the entire document. The new version is shown in the history table below. Revisions and updates affecting individual rules and regulations are shown in a version history within each rule and do not require a new version release.

The version date is the date the LISA Board approved the new document.

USING THE RULES AND REGULATIONS

The rules and regulations are divided into:

- Registration and Team Formation
- Small Sided Games
- Inter Organization Competition
- District Cup and LISA Cup Play
- Provincial A and B Cup Play
- Discipline

Each rule within the Parts is structured:

- the rule number;
- the version history;
- a Rules Statement (high level summary of what is in the rule); and
- the Rules.

The text is written in plain language but if you are unsure of how to interpret or use the rule, contact the Executive Director at executivedirector@lowerislandsoccer.com.

PART 1. DEFINITIONS

This Part defines the terms used in these Rules and Regulations.

The definitions add to those in the Societies Act and regulations (the legislation under which LISA is constituted), the LISA bylaws, and the LISA policies.

If there is any conflict between the definitions, those in the legislation, bylaws, and policies prevail.

"residence qualification" means the residence of the "parent".

PART 2. REGISTRATION AND TEAM FORMATION

This Part covers the registration of players and the formation of teams.

All youth soccer players must register with a LISA Full Member or Provisional Full Member.

The Member organization passes the registration information to LISA, which in turn passes it on to BCSA. Once this has been done, the players are officially registered with BCSA.

Players are registered to a Member organization, not to a specific team.

The Member organization forms the teams. It assigns each player to the team that best suits the player's development. The team composition can change until competitive play starts in January. At that point, the LISA organization registers the teams with LISA and BCSA and the composition of the teams is 'set'.

The Member organizations select the coaches for both in-house (House League) and District-wide league play. This Part also has the rules and regulations on these processes.

**RULE 403: DETERMINING LEAGUE WINNERS**

VERSION HISTORY	
Date of Original Version	January 2024
Date of Revised Version	
Date Last Reviewed	

Rule Statement

LISA will determine and declare league and section winners.

Rules**League standings**

LISA Board is the sole authority for determining the games that will count towards the tallying of points to determine the final league standings.

Rounds

A 'round' is a full set of matches in which every team in a section is scheduled to play each other once.

There is no minimum or maximum number of rounds to determine the final section standings.

- Round 1 in interlocking play is the first time the teams play all other teams within their section (or pool);
- Round 2 in interlocking play is the second time the teams in a section play all other teams within their section in a reverse home and away fixture; and
- Additional rounds will be scheduled in alternating home and away fixtures sequence.

A round is considered complete if it meets at least one of the following conditions:

- all teams have played every game scheduled for that round;
- all teams with a mathematical chance of finishing atop the standings, have played all their games scheduled for that round;
- all teams with a mathematical chance of finishing atop the standings upon entering a round have played enough games in that round, that only one team has now clinched first place;
- a team that has a mathematical chance of finishing on top the standings but during the playing of that round drops out of mathematical contention, that team will no longer be considered to be in contention; and
- if a team is in first place at the end of an earlier completed round but drops out of mathematical contention in a subsequent round, that team cannot become the league winner.

Points earned

The winner will be the team with the most points earned from eligible league games played.

LISA:

- may alter a schedule in order to better accommodate matches that will complete rounds (weekly rescheduling);
- may increase the number of games to be counted in the final standings if only one round meets the definition of what is a 'completed' round; and

- could include counting games in the second round involving common opponents of those teams that still had a mathematical chance of finishing in first place were the second round played to completion.

Number of winners

- there will be only one winner in each section of every division;
- the winning team will receive a perpetual trophy; and
- each player and team official on the winning teams will receive a keeper medallion.

Tier 3 League

- the winner in each division will represent LISA in the Vancouver Island Invitational Cup (Island Cup) unless:
 - the team does not meet the eligibility requirements, then the representative will be the next highest-finishing team in the section; and
 - if no team is eligible, LISA will use the same system to determine the representative from the Tier 4 section in that divisional age group; and
- LISA will, in most cases, use the same system to determine the ranking as they used to determine league winners.

Tier 4 and below

- LISA will promote the league winners to the next higher section for play in the District Cup if they meet the eligibility requirements²².

Tie breaker matches

If two teams are tied at the top of the standings:

- they will play one extra game to determine the league winner;
- the home team is one that had the fewer "home games";
- if both had the same number of home games, they will select the "home team" by coin toss;
- if the game is tied at the end of regulation play, they will play two halves of extra time; and
- if they are still tied at the end of extra time, the winner will be decided by kicks from the penalty mark (sometimes referred to as a 'FIFA shootout').

If three or more teams are tied atop the standings:

- the league winner will be determined using a single-elimination cup format; and
- home fields and the bye(s) will be determined by a random draw.

Insufficient time to play

If there is not enough time to complete an extended series of playoff games:

- a single game, cup format, will be used to determine the winner;
- the home team will be determined by a coin toss; and
- the winner of the coin toss will choose to be home for either the first or second game.

- If there are no referee assistants, the two teams:
 - will agree on a substitute to assume the role of referee;
